Create an account in Sendgrid:

The screenshot shows the SendGrid sign-up page. The browser tabs include [Docker] Reset pass..., IBM, IBM-Project-48229-1, Setting up Application, IBM Cloud, and New Account | SendGrid. The URL is signup.sendgrid.com. The page has a light blue background with the SendGrid logo and the text "Let's Get Started". Below this, it says "Sign up for free. No credit card required." There are input fields for "Email Address" (containing 953619104008@ritrjpm.ac.in) and "Password" (with a strength indicator). A checkbox "Use email address as username" is checked. Below the password field is a CAPTCHA "I'm not a robot" and a checkbox "I accept the Terms of Service and have read the Privacy Notice". A "Create Account" button is at the bottom. On the right, a box titled "Try it out!" lists features: Automated drip campaigns, Password resets, Newsletters, Receipts, Delivery notifications and updates, and Promoted emails.

The screenshot shows the SendGrid dashboard after login. The browser tabs are the same as the previous screenshot, with the URL now being app.sendgrid.com/guide?from=profile&integrate=true. The user is logged in as "chandhru.R". The dashboard has a sidebar with navigation links: Account Details, Setup Guide, Help & Support, Sign Out of Account, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS NEW. The main content area says "Welcome, chandhru!" and "To get up and running quickly, please follow the steps outlined below." A large blue banner reads "Send your first emails with Twilio SendGrid". Below this, a section titled "Create a sender identity" explains that a sender identity is needed and provides a "Create a Single Sender" button. To the right, it says "Your sender identity is the 'from' email address your recipients will see in their inbox." and shows an example: "Your Business <jane.doe@your_business.com>". At the bottom, a footer says "Send your first email" and "Please create a sender identity before sending your first email."
